to learn & practice *nonviolent, transformative communication skills.*

JUST Listening Workshop

- Being heard empowers the speaker
- People hold the solutions to their own problems within
- Skilled listening is creative, opening up new possibilities for all involved, and can be a powerful tool for personal and social change.
- Although rarely consulted or listened to, people on the social margins are the best source of information and ideas about the issues facing them.
- Skilled listening is possible only when one is actively cultivating self-awareness and regular habits of reflection.

Listening is an act of Justice
